

## GAURANG SANGLE

### SOFTWARE ENGINEER | JAVA SPRING BOOT DEVELOPER

Dhule, MH | Ph : +91 9096001994 | gaurangsangle123@gmail.com

#### EDUCATION

##### R.C. PATEL INSTITUTE OF TECHNOLOGY

Bachelor of Technology (Computer Engineering)

Shirpur, MH  
12/2021– 05/2025

##### SHRI SHIVAJI HIGHSCHOOL % JR. COLLEGE

Higher Secondary Education (HSC) 89%

Navapur, MH  
02/2020 – 03/2021

##### SHRI SHIVAJI HIGHSCHOOL & JR. COLLEGE

Secondary School Certificate (SSC) 90%

Navapur, MH  
02/2018 – 03/2019

#### PROFESSIONAL EXPERIENCE / INTERNSHIP

##### SYMBIOSYS TECH. (IN COLLAB WITH CAPGEMINI)

Web Development Intern

Shirpur, MH  
01/2025 – 04/2025

- Developed and delivered 10+ web development tasks and modules within defined timelines while maintaining software quality standards.
- Collaborated with cross-functional engineering teams to design, develop, test, deploy, and maintain scalable software applications using Java, Spring Boot, React.js, SQL, and AWS in an Agile development environment.
- Built scalable and user-friendly UI components using React.js, Tailwind CSS, HTML, CSS, JavaScript, and jQuery to enhance application usability and frontend performance.
- Contributed to full-stack software development including RESTful API integration, database operations, debugging, software maintenance, feature implementation, and continuous improvement following Agile and SDLC practices.
- Designed and developed scalable backend services, multi-tier application features, RESTful APIs, and microservices-based solutions using Spring Boot while following software engineering principles and Agile methodologies.
- Participated in problem-solving, debugging, code optimization, code reviews, and technical discussions to deliver reliable, maintainable, and production-ready software solutions.

#### PROJECT EXPERIENCE

##### CHANDRAYAAN 3 WEBSITE

03/2025

- Architected a visually appealing web application through Frontend technologies - HTML, CSS, JavaScript - React.js, Java Hibernate, REST API's, MySQL for backend; implementing with a modular design for easier scalability, maintenance, and future feature integration.
- Designed modular and scalable application architecture with relational database integration, optimized query handling, backend service communication, and maintainable software design patterns.
- Synthesized a detailed educational resource on Chandrayaan-3, researched over 50 articles and Science Journal, simplifying complex space concepts into engaging and user-friendly content.

##### BITTY – BITES: FOOD ORDERING WEBAPP

01/2025

- Deployed a full-stack e-commerce application using React.js, Spring Boot, RESTful APIs, MongoDB, and scalable backend services to support customer transactions and application workflows.
- Strengthened stakeholder relationships through clear, outcome-focused communication, resulting in improved client trust and a 20% increase in project upsells.
- Implemented customer interaction, order management, business logic, and backend service features to improve user engagement and streamline food ordering workflows.
- Enabled customer engagement features and streamlined ordering workflows to improve overall platform usability and interaction.

##### E – COMMERCE WEBSITE

12/2024

- Launched a visually stunning e-commerce website, using React.js, Tailwind CSS and Boot Spring. REST APIs and MongoDB for backend operations. Improving user engagement metrics with increased in time spent on site during the first month post launch.
- Fabricated a user-friendly navigation menu through implementing smooth scrolling effects enhancing user experience by 50%.
- Navigated complex technical challenges by engineering innovative solutions, designing innovative solutions that cut troubleshooting time by 40% and boosted system reliability.

#### LEADERSHIP & ACTIVITIES

##### CODASTRA CODING CLUB

Coordinator of Events

Shirpur, MH  
09/2024 – 01/2025

- Co - Founded RCPIT's first-ever coding club, orchestrating workshops and training that empowered 500+ students with industry-relevant skills.
- Directed and Organized 10+ coding hackathons and technical meetups across 3 colleges, drawing 300+ participants and amplifying CODASTA's reach.
- Championed team collaboration, mentored 5+ junior developers, conducted technical guidance sessions, and promoted software development best practices that improved code quality.
- Led cross-department student teams to deliver events on strict timelines, maintaining 100% on-schedule execution.

#### ACHIEVEMENTS & CERTIFICATIONS

- Technical Skills/ Programming Languages:** Java, Python, JavaScript, SQL, Spring Boot, Hibernate, React.js, Object-Oriented Programming (OOP), Object-Oriented Design, Data Structures & Algorithms, Problem Solving, Software Engineering, SDLC, Agile Development, RESTful APIs, Backend Development, Frontend Development, Microservices, Relational Databases, MySQL, PostgreSQL, MongoDB, AWS, CI/CD, Git, GitHub, Version Control, Debugging, Code Review, Unit Testing, Software Testing, Application Development, HTML, CSS, Debug, test, optimize applications, Generative AI Fundamentals, LLM concepts, AI-assisted development tool.
- Achievements:** Cleared UPSC NDA 2x, UPSC CDS 2x.
